# CAMS Interest Letter

January 14, 2023

Dear Lucas;

I invite you to come and visit us at the Capital Area Modelers Society (CAMS), a chapter of IPMS/USA. We're a small group that is just over a year old. We get together on the first Thursday evening of each month at the downtown Lansing Capital Area District Library, 401 S. Capital Ave., from 6:30 to 8:00 p.m.

Getting together with other modelers is a great opportunity to show what we've been working on. We share information about tips, tricks, tools and techniques. Usually there's someone in the group who knows the answer to the problem you're working on. In the past few months we've had demonstrations on two ways to cast parts and a review of ways to fill and smooth seams.

At our next meeting, February 2, we will be setting up a display in one of the library's large windows which will illustrate and promote scale modeling and our club. Then at the library on Saturday, February 25, we will be giving a presentation and some demonstrations for the public about the enjoyment of scale modeling. Please join us for those events. We'd love to share with you more of what we're up to.

If you would like to know more about the Capital Area Modelers Society (CAMS), take a look at our FaceBook page (<https://www.facebook.com/groups/982624935696306/>). Or you are welcome to send me an email or call.

We look forward to having you join us.

Happy modeling,

Dick Davenport

### Introduction to Scale Modeling

Saturday, Nov. 18 1:00-3:00 PM

Join the Capital Area Model Society (CAMS) as they share their expertise on how to get started in scale modeling of all types. CAMS members will have demonstration stations where you can observe and ask questions, so you can drop in anytime. Attendees will be entered in a drawing to win free modeling door prizes as well!

### Art Works: Capital Area Modellers Society

by: Keaton Franklin

Posted: Mar 14, 2024 / 01:16 PM EDT

Updated: Mar 14, 2024 / 01:21 PM EDT

LANSING, Mich. (WLNS) — On the first Thursday of each month, a group of like-minded enthusiasts meets at the Capital Area City Library to talk all things modeling. The Capital Area Modellers Society president, Richard Davenport, said the club started with just him and one other member. In a short period, they have grown to have more than 20 members.

(WLNS/ Keaton Franklin)

"Modeling tends to be a solitary activity. You're sitting down there," Davenport told 6 News. "Putting your pieces together by yourself and finding other people who do the same thing and are interested in it is kind of the fun right there. And then you're able to learn from each other. This is how I do this. This is what works for me."
